Three-Day Transcendent Path Life Coach Training, a one-on-one LIVE, hands-on transformational training in Sedona for Coaches who seek to combine their standard life coaching tools with the metaphysical, spiritual and transcendent power of healing mind, soul and body for a balanced, purposeful Life.

Day 1 – How to assess a Client. Assessing the client’s practical, functional, and essential skills of everyday life in order to find a purposeful path to convey knowledge and solutions; skills are about knowing the right questions to ask and having the right tools and techniques to empower client’s mind, soul and body.

Day 2 – How to communicate and implement Truth & Clarity in Client’s psyche
Traits of a successful Life Coach are being a superb listener and having the gift to unearth the answers within the client by using powerful coaching tools, and allowing the client’s own inner wisdom of truth and clarity to find the right solution and answers.

Day 3 – How Client arrives at divine Destination and Purpose in Life. This perspective generates energy adjustment, opens soul space to create and heal, sets emotions in a positive state, and minds clear. It opens attitudes towards “greater awareness”, clears the way for deep authentic truth, conscious living and life’s purpose.

This **Spiritual Path Life Coach Training** is a spiritual *refresher* course for Life Coaches, Teachers, Counselors, Managers, and for those who want to start a career as a Life Coach exploring their true calling.
